FREDONIA NURSERIES

Grape Vine Specialists

General Nurserymen

FREDONIA

MILTON E. ROESCH

Proprietor

NEW YORK

To My Friends and Customers:

I am pleased to announce that I am now in business for myself. I severed my connection as manager of THE WEST HILL NURSERIES, this last summer. Since that time I have purchased practically all of the nursery stock belonging to them, including over sixty varieties of GRAPE VINES which I list in this catalogue. The name "Westhill Nurseries" was sold to another. I will also continue with a general line of Nursery Stock. All orders intrusted to my care will be filled with FIRST-CLASS trees and plants of high quality.

My father, the late LEWIS ROESCH, started in the nursery business in 1875. I was born into this business and have spent my entire life in growing and selling nursery stock. Practical experience thus gained places me in a position to know and supply my customers the best of stock and service.

I will appreciate your patronage. Address all correspondence directly to me or THE FREDONIA NURSERIES. THANK YOU.

MILTON E. ROESCH

THIS CATALOGUE IS OUR SALESMAN

Through it we sell direct to you, the planter. You save the commission usually paid to agents.

SMALL ORDERS FOR LESS THAN \$1.00—

Add 10c. We find it unprofitable to fill orders of less than \$1.00 without a small additional charge.

TERMS. Cash with order or shipment may be sent C. O. D. when one-quarter of the amount and not less than \$2.00 is sent with order. Send check, money-order, or bank draft. Money sent in the mail is at sender's risk.

QUANTITIES AND RATES. Five of one kind or ten of not over three varieties at ten rates. Fifty of not over five varieties at 100 rates. 400 of not to exceed eight varieties at 1000 rates.

SUBSTITUTION. In case we are out of a variety or size called for, we reserve the right to substitute another similar variety or grade of equal value, unless the words "NO SUBSTITUTING" are written on the order.

TRANSPORTATION CHARGES. We do not prepay, except, where noted by mail. All express and freight shipments are forwarded charges collect.

POSTPAID. Quotations within this catalog apply to orders mailed to points within the fourth zone. For points beyond, add 10% to cost of stock for additional postage.

WE GUARANTEE OUR STOCK true-to-name, of quality represented. Free from vermin and disease. To reach you in good condition. If shipment arrives otherwise, we expect customer to notify us immediately. Claims of any kind must be made within five days after receipt of stock. At prices we sell, it is impossible for us to guarantee growth or to be responsible for stock after delivery to customers in good condition.

CONCORD SEEDLESS

Now! A Seedless, Hardy, Eastern Grape!

... Mother Nature's newest gift to grape lovers. Fruit resembles our well-known Concord in color and flavor. Clusters and berries are somewhat smaller. Ripens with Concord. But what possibilities for PIE stock, either fresh or canned for winter use. SEEDLESS Grape Pie will make a BIG HIT with the men folks. Be the first to grow the latest introduction to the grape family.

PRICE

1 YEAR No. 1 Vines. \$1.50 Each.

2 YEAR No. 1 Vines. \$2.00 Each

FREDONIA

The Finest Early Black Grape!

Fredonia ripens with the earliest. Bunch and berries large. Skin firm. Flavor of the best. It fills a long felt need for an early TABLE GRAPE of high quality that would make a real appetizing appearance in our fruit markets. It does not crack. Commercial growers will find this grape a money-maker. Those who can plant only six to ten vines should include at least one or two FREDONIA.

PRICE of 1 YEAR No. 1 Vines. 25c Each

See general PRICE LIST on Page No. 7, for prices of larger vines and quantities.

WESTFIELD

*The Newest **Juice** Grape!*

A big improvement over Concord, which it resembles. Bunches are more compact and berries are much firmer. The juice is highly colored, exceeding that of Concord. Ripens one week earlier. A big advantage in places other than in the accepted GRAPE BELT areas. Vine vigorous, hardy and productive. It will pay you to start growing WESTFIELD this year.

PRICE of 1 YEAR No. 1 Vines. 50c Each.

See general PRICE LIST on Page No. 7, for prices of larger vines and quantities.

GOLDEN MUSCAT

*An **Aristocrat** of the Grape Family!*

The high qualities of its Parents have combined to produce a hardy vine, bearing grapes of wonderful Characteristics. Resembles in quality and texture the white California Grape sold in our Fruit Markets today. Requires a season fully as long as Concord. The vine is a strong grower. The clusters are very large, heavy, long, broad and tapering. A very desirable grape.

PRICE of 1 YEAR No. 1 Vines. 75c Each.

See general PRICE LIST on Page No. 7, for prices of larger vines and quantities.

F A M O U S — F R E D O N I A —

AGAWAM (Rogers No. 15), Red.

A large grape, ripening with the Concord. Sweet, with rich, aromatic flavor. A rank grower and very productive. One of the most reliable of Roger's Hybrids.

BACCHUS, BLACK.

Vigorous, hardy and productive, free from mildew and adapted to a variety of soils. Fruit ripens late. Bunch and berry of medium size.

BARRY (Rogers No. 43), Black

Bunch very large and shouldered. Berry large, flesh tender, sweet and good. Ripens before Concord. Vine vigorous, healthy and hardy.

BETA, BLACK

New. Bunch large and compact. Berries of medium size, second in quality. Very early. The vine is a very rank grower, exceedingly hardy and a tremendous bearer. Very popular in the Northwest, where only the earliest and hardiest varieties succeed.

BRIGHTON, DARK RED

Bunch large, long and shouldered, berries medium, skin thin, flesh tender, sweet and best quality. Ripens with or before Delaware. Vine vigorous and fairly productive. Yields best if planted among other varieties. A valuable and desirable grape for garden and vineyard.

CACO

A new red grape originating in Delaware. Its quality is excellent, ripening midseason. The fruit is very large and handsome. A rich wine red color. Highly recommended.

This juicy fruit of high
repute,

Into a pie was made.

It wasn't long before
the throng,

Highest praises to
MOM had paid.

CAMPBELL, BLACK

A handsome, large grape, with blue bloom. Bunch large, usually double-shouldered and compact. Its flesh is sweet to the center, but rather hard and pulpy. It is not high-flavored, but good, not foxy. Its skin is tough and it is a good shipper. It ripens about with the Concord, but colors up much earlier. Inclined to overbear and should be pruned closely.

CATAWBA, RED

Well-known. Bunch and berry large and of a rich, vinous, refreshing flavor and best quality. Ripens after Concord.

CHAMPAGNE, RED

New. Bunch and berry very large; sweet, juicy. Exceedingly productive. Strong, healthy grower. Ripens with Concord.

CLINTON, BLACK

Desirable for wine and preserving; bunch and berry small to medium; flesh juicy and spicy; colors up with the Concord, but is not ripe until two or three weeks later. A rank grower and hardy.

CONCORD, BLACK

The most extensively planted grape in America. Bunch and berry large, fair quality, medium early; vine a rank grower, very healthy, hardy and productive.

CONCORD SEEDLESS — See Page 2

DAISY, BLACK

Is of medium size in both bunch and berry and very compact. Its berries never crack nor drop from the cluster. Ripens a week before Moore or Champion, and is as hardy, healthy, robust and productive. Indispensable for cold sections having short seasons.

DELAWARE, RED

The standard of excellence. Bunch and berry medium, compact, flesh juicy, very sweet and refreshing. Ripens with or before Concord. Vines very hardy and productive; a slow grower, requires rich soil, good culture and close pruning. Subject to mildew in poor grape sections and seasons.

DIAMOND, WHITE

Bunch and berry large. Quality fine. Ripens a little before Concord. A strong grower and quite healthy and hardy; very productive. Desirable for both home and market.

DIANA, RED

The flavor is of the best. Vine vigorous, not always hardy. It's wine exceeds that of Catawba. Ripens two weeks earlier. Not a commercial grape but a most excellent one for any grape lover.

EATON, BLACK

Similar to Worden, but not as early. Berries are even larger, although not so sweet; clusters not as large and compact.

ELVIRA, WHITE

Bunch and berry of medium size and very compact. Ripens about with the Catawba. A very strong, robust and healthy grower and as productive as anything we have yet seen. Highly prized as a wine grape in the South.

FREDONIA. — See Page 2

GAERTNER, RED

One of the best of the Rogers' Hybrids. Fruits and clusters large and handsomely colored, making a showy grape and selling for high prices in fancy fruit stores. Ripens in midseason. Red in color and of excellent flavor.

— GROWN — GRAPE — VINES

GOETHE (Rogers No. 1), Light Red

Bunch large, berries very large; flesh sweet and juicy; ripens about with Catawba. Vine vigorous, rank grower, and generally healthy. Good keeper; highly esteemed in the South for table and wine.

GOLDEN MUSCAT — See Page 3

HERBERT (Rogers No. 44), Black

Bunch and berry very large; flesh sweet, tender and of good quality. Early, hardy and productive. One of the best of Rogers' Hybrids.

HUBBARD, BLACK

Bunch and berries large; quality sweet. Skin quite thin but firm. Ripens early.

IONA RED

A grape of the finest flavor. Does especially well when trained against walls or buildings, planted on dry, deep sandy soil. Inclined to overbear. Prune close each year. Ripens in midseason.

IVES, BLACK

Bunch and berry medium; compact. Colors early but is not fully ripe until after Concord. Quality fairly good when fully ripe. Very healthy, hardy, vigorous and productive. A generally successful market grape.

JEFFERSON, RED

A grape of the best quality; bunch very large and handsome, often double-shouldered; berries medium. Ripens with, or before, Catawba. Vine vigorous, healthy and productive.

JESSICA, WHITE

A grape originated in Canada. Small to medium in bunch and berry. Sweet as honey; not foxy. Ripens with Moore. Vine a fair, compact grower, healthy and productive. One of the hardiest.

KING, BLACK

New. Much larger than Concord in both bunch and berry; more compact, juicier but hardly as sweet. Ripens with or a trifle before Concord. A good, strong grower, hardy and prolific. Excellent for show purposes and local market. Too tender skinned for distant markets.

LINDLEY (Rogers No. 9).

A red grape of best quality and one of the most desirable of Rogers' Hybrids. Medium to large in bunch and berry; flesh tender, sweet and of aromatic flavor. Ripens with Concord. Carries and keeps well. Vine vigorous, hardy and healthy. This grape seems to be more productive when mixed with other varieties and grown on clay soil.

LUCILE

A red grape ripening soon after Moore's Early. The Lucile is a most vigorous grower, hardy and an enormous bearer. It will ripen all of its wood even under

a heavy load of fruit. It has never been known to winter-kill and is peculiarly free from grape diseases. The bunch is very large, usually shouldered. We have harvested many so large that two bunches could not be put in a two-quart basket and fasten the cover on. Quality very good. The Lucile is a wonderful grape anywhere, but especially for the short season in the North. We receive many flattering testimonials for the Lucile every year. Everyone should plant at least one vine in his garden.

LUTIE, RED

Highly prized in the southern climates, where it does exceptionally well. A very vigorous grower and hardy. Fruit of good size and quality. Ripens with Worden.

MARTHA, WHITE

Medium in bunch and berry; color greenish turning yellow. Ripens with Concord, of which it is a seedling. Good as Concord in quality but sweeter. Good grower and bearer; hardy and healthy.

RETURNS**

MOORE, BLACK

A seedling of the Concord which it resembles. Bunch large, berry very large. Equal to the Concord in quality, health and hardiness but ripens some ten days earlier. It is a fair grower and bearer but requires age to do its best. Valuable for garden and vineyard.

NIAGARA, WHITE

A magnificent grape, valuable for garden and vineyard. Berries large, skin tough; quality very good; beautiful bunches of the largest size. Ripens about with Concord. A rank grower and very productive. Popular with vineyardists and amateurs North and South.

ONTARIO, WHITE

Another origination of the New York State Experiment Station. Very early, ripens with Winchell. Produces large, compact clusters of good size and wonderful flavor. A very promising variety. A strong grower and hardy.

GRAPES—Continued

POCKLINGTON, WHITE

Very large and showy in both bunches and berry. Very compact, of beautiful golden color. Quality about as good as Concord, with which it ripens; liked even better by some. Vine vigorous and very healthy, hardy and productive.

PORTLAND

A new white grape developed in Fredonia, N. Y. Ripens earlier than any other known grape, which permits its being planted over a wide range of territory. Berries large and have that beautiful yellowish color like the Niagara. All the truly good qualities desired in a grape are incorporated in it. Quality excellent — equal to the Niagara and other later grapes. It contains much sugar and can be eaten before it is fully ripe. Vine hardy and productive. You will be pleased with this new grape. Makes a beautiful showing with Fredonia and Lucille.

REGAL, RED

New. Clusters are medium to large and very compact. Berries large, dark red, juicy; skin thin but tough. Pulp tender, releasing seeds easily. It ripens with the Concord. Exceedingly productive. Very vigorous, healthy and hardy.

SALEM, DARK RED

Bunch and berry large; flesh sweet, tender, with a rich, fine flavor. Ripens with Concord. Good keeper, vigorous and productive.

SENECA

Is almost pure Vinifera, ripening in early mid-season. Bunches are tapering. Oval yellow berries. Texture firm, melting and tender. Flavor sweet, vinous and aromatic. Skin can be eaten with berry. Vine vigorous, healthy, hardy and productive.

SHERIDAN, BLACK

A new grape of recent development. Ripens one week later than Concord, which it surpasses in flavor. Bunch and berry large. One of its most valuable characteristics is its excellent keeping qualities.

URBANA

It is the finest late red Grape of recent introduction. Its flavor is unique among hardy Eastern varieties. Equal to the best European varieties. Its bunch and berries are large and meaty. Very sweet. Good keeper. Makes a clear, bright red jelly of excellent flavor. Can be grown successfully south of the Great Lakes. Season one week after Concord. We have listed this variety since 1928 and many of our friends and

customers have sent us such satisfactory reports that we felt it should have wider distribution.

VERGENNES, RED

Bunch and berry large; skin thick and tough; quality excellent. Ripens soon after Concord. Very vigorous, healthy and productive; hardy. Splendid keeper and shipper.

WESTFIELD — See Page 3

WILDER (Rogers No. 4), Black

Bunch and berry very large; flesh sweet, pleasant and of excellent flavor. Ripens soon after Concord. Good grower and productive. Good keeper and shipper.

WINCHELL (Green Mountain), White

Originated in Vermont. Bunch long but slender; berry medium, sweet, of fine quality. Early as Moore. A good, vigorous grower, healthy, hardy and productive.

Send your order to us.

WOODRUFF, RED

A grape of ironclad hardness. Large in bunch and berry; attractive, shouldered, sweet and of fair quality, but somewhat foxy and does not always color up well. Ripens soon after Concord. A rank grower; very healthy. Woodruff is desirable as a market variety where many others fail.

WORDEN, BLACK

This excellent grape is as hardy, healthy, vigorous and productive as the Concord of which it is a seedling but better in quality. It is sweeter, larger in bunch and berry, and several days earlier. Tender skinned and inclined to crack but still valuable for garden and vineyard.

WYOMING, RED

Superseded by the Lucille, which is more productive, much larger and better in every way.

Special Notice!

For lighter grades in one year old stock of Grape Vines, Fruit Trees, Shrubs, etc. etc. turn to Pages No. 21, 22 and 23.

Apple Trees

PRICES OF 2-YR. OLD TREES EACH 10 100
First Grade. 5 to 7 ft. 11-16 in. cal. 60c \$5.50 \$40.00
Medium Grade. 4 to 5 ft. 9-16 in. cal. 50c \$4.50 \$35.00

SUMMER VARIETIES

RED ASTRACHAN.

Tree hardy and good bearer. Fruit very handsome, large round, nearly covered with deep crimson, overspread with thick bloom; juicy and good, though rather acid; one of the best of the summer varieties for cooking. Ripens in August.

SWEET BOUGH.

Large, pale yellow, sweet. Abundant bearer. One of the best sweet apples. August.

YELLOW TRANSPARENT.

The best early yellow apple. Excellent flavor. Trees hardy and abundant bearers. August.

AUTUMN VARIETIES

DUCHESS OF OLDENBERG.

Vigorous growth; large; striped; tender, juicy, sub-acid; good; regular and abundant bearer. One of the hardiest kinds known. Ripens July 20th.

McINTOSH.

An exceedingly valuable, hardy, attractive apple; good sized nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. Tree hardy, vigorous and a good annual bearer, comes into bearing young, yielding large crops, ripens in September.

WEALTHY.

Beautiful brilliant red apple of fine quality. Exceptionally hardy and an early bearer. Excellent filler. Its hardiness makes it adaptable to cold climates. October to January.

WINTER VARIETIES

BALDWIN.

Large, bright red, crisp, juicy and firm. The old favorite for market and home use and probably the most extensively planted in the United States today.

CORTLAND.

A derivation of McIntosh, but ripening about two weeks later. Thrifty, comes into bearing when young and remains a long time. Fruits abundant, large, round, with heavy overlay of shaded reds. Hangs on the tree longer than McIntosh and is a little tougher skinned, making a better shipper.

DELICIOUS.

A large dark red apple with crisp, fine grained

flesh of excellent quality and flavor. Hardy, vigorous and an annual bearer. Splendid keeper and shipper. December to February.

DOUBLE RED DELICIOUS.

A very fine colored, solid red strain of Delicious resembling its parent in all characteristics except color.

JONATHAN.

The extra quality, medium red fruit, by general consent is placed among the very best in both appearance and quality.

NORTHERN SPY.

A leading commercial variety. Fruit is large and very attractive, being of bright red color with a delicious bloom. Flesh is juicy, crisp and excellent for dessert or culinary uses. November to April.

Happiness for Everybody

THE ROAD —
Cheerfulness

THE VEHICLE —
Helpfulness to others

RHODE ISLAND GREENING.

Large, yellowish-green apple of fine quality. An abundant yielder and excellent keeper. One of the leading commercial sorts. November to March.

ROME BEAUTY.

Yellow and red striped apple of excellent quality. Prolific annual bearer. Early bearer and good keeper. Profitable commercial sort for New York, Ohio, Pa., and W. Va. December to May.

STAYMAN'S WINESAP.

Yellow striped with red. Excellent quality. Productive and an early bearer. Splendid late keeper. December to March.

CRAB APPLES

(Same price as Apple Trees)

HYSLOP.

Large, deep crimson, one of the most beautiful, very popular; in our estimation the best for all sections.

Peach Trees

of Tested Bearing Quality

A Peach tree comes into complete bearing in three to four years, and they can be planted in a corner or nook, if desired. The comparative ease with which Peaches are cultivated, and their promise of early returns, makes them very profitable to grow. Plant 15 feet apart each way.

PRICE OF PEACHES	EACH	10	100
First Grade. 4 to 5 ft. high. 1 yr.			
9-16 to 11-16 in. Cal.	40¢	\$3.50	\$25.00
Medium Grade. 3 to 4 feet high.			
7-16 to 9-16 inch Cal.	35c	\$3.00	\$20.00

CHAMPION

An extremely large, handsome early variety, creamy white with red cheek. Hardy and productive. Follows Carman in August.

CUMBERLAND

A seedling crossed with Greensboro. The tree is a vigorous grower and as hardy as Carman. The fruit is larger than Belle of Georgia; attractively colored with red and oval in shape. The flesh is white almost free, firmer and better quality than Carman. Ripens five days ahead of Carman. August.

DEWEY

The earliest yellow-fleshed freestone peach. Of good size and shape and of beautiful color. Tree is a robust grower, hardy and very productive. August 1st.

ELBERTA

The most popular peach grown. It is hardy, a sure bearer and very prolific. Fruit large, yellow with red cheek. Flesh yellow, firm, juicy and of high quality. A generally successful market peach, North and South. Ripens soon after Early Crawford. September.

EARLY ELBERTA

An excellent new variety resembling Elberta very closely, except a little rounder in shape and about ten days earlier in ripening. Middle of September.

GOLDEN JUBILEE

A large early yellow peach of the Elberta type. Ripening three weeks ahead of Elberta. The skin is yellow blushed with red. Flesh juicy, tender, and sweet. Early September.

HALE

New. A remarkable peach of the Elberta type, dis-

covered by the late J. H. Hale, of Connecticut, famous as the Peach King of America. The New York State Agricultural Station at Geneva, N. Y., describes it as a few days earlier than Elberta, hardier in bud and tree and equally productive. Its fruit averages larger, is more round, firmer, heavier and has less fuzz on its skin. In quality and beauty it is at least the equal of Elberta. Early September.

HALE HAVEN

A large new yellow freestone; developed at the Michigan experiment station by crossing the two popular varieties J. H. Hale and South Haven. Its high color before ripening gives it a great market value because of the advantage of premature picking, packing and shipping without loss. It rates very high for hardiness and production and is a splendid variety. It ripens two weeks ahead of Elberta.

ROCHESTER

A comparatively new extra early peach of the highest quality and most delicious flavor. Large yellow, with attractive red blush. A very fine canner, prolific and an early bearer. Early September.

SOUTH HAVEN

Another excellent new peach well worth planting. Golden yellow with red blush. Large, meaty and of delicious flavor. Prolific. Early September.

VEDETTE

A Canadian introduction of great merit. Hardy, large, roundish oval, yellow fleshed and a freestone. Ripens about 3 weeks before Elberta and is superior to it not only in quality but in color as well.

WILMA

A new Peach of merit. The fruit is large as Elberta, its parent, but not quite so elongated; ripens about 10 days later.

YELLOW ST. JOHN

A fine early freestone peach with red cheek. A very good bearer and ripens in August.

The Borer is the Peach Tree's Worst Enemy—
Keep Him Out by Use of

PARA-DICHLOROBENZENE

Which has proven very successful and is easy to
apply.

Directions with every package. One pound will
treat from 15 to 20 trees, depending upon
the size.

Price, \$1.00 per lb., postpaid.

Pear Trees

From Prolific Parent Stock

PEARs will thrive and produce abundantly on most any good soil, but prefer heavy clay or clay loam, well drained. They should be planted about 20 feet apart each way (dwarf varieties about 10 feet apart).

PRICES OF 2-YR.-OLD TREES	EACH	10	100
2 Yr. 5 to 7 ft. high. 11-16 in. Cal. . .	65c	\$5.50	\$50.00
2 Yr. 4 to 5 ft. high. 9-16 to 11-16 Cal.	55c	\$5.00	\$45.00

Five of one variety or ten of not over three varieties at ten rates.

ANJOU.

Trees are vigorous, grow rapidly and come into bearing young. The fruits are large, uniform, greenish yellow with firm juicy flesh, and as an early winter pear it has no superiors and few equals.

BARTLETT. Well known Summer Canning Pear.

BOSC.

The fruits of this pear are nearly flawless in every character, extra large, long and tapering, russet, good shipper and usually brings highest market price. The quality is very good, Seckel being the only other pear surpassing it as a dessert.

CLAPP'S FAVORITE.

It is the standard late summer pear to precede Bartlett, which it much resembles, in size, shape, flavor, and color. Does best in heavy clay soil.

DUCHESS.

Very large rich and juicy. Pick them before maturity, wrap in tissue paper and rack them away for complete ripening.

GORHAM.

Pear growers want a variety to follow Bartlett which lacks some of the conspicuous faults of the several sorts that are grown for that season. Gorham ripens its fruit 2 weeks later than Bartlett and it keeps a month longer. The fruit resembles that of Bartlett in size, color and shape. The flavor is sweet and vinous, KIEFFER.

The large size, handsome appearance, and remarkable keeping and shipping qualities puts the fruit among the best keepers.

SECKEL. (Sometimes called the sugar pear).

A small pear of excellent flavor, fine for pickling or dessert, very productive and a profitable commercial pear. Seckel stands almost alone in vigor of trees and immunity to blight.

SHELDON.

Medium sized, yellow, with a rich shaded cheek, flesh a little coarse, melting and juicy, and ranks with the leaders in quality.

Sweet Cherry Trees

PRICES OF 2-YR.-OLD TREES	EACH	10	100
2 Yr. 5 to 7 ft. high. 11-16 in. Cal.	80c	\$7.50	\$65.00
2 Yr. 4 to 5 ft. 9-16 to 11-16 in. Cal.	70c	\$6.50	\$55.00

Five of one variety or ten of not over three varieties at ten rates.

BING.

Very large, dark brown, almost black, flesh firm, sweet and delicious. The fruits hang well on the trees and ripen at one time. July.

BLACK TARTARIAN.

Very large, juicy, black and rich. Last of June. It is adaptable to a wide range of soil, lives long and bears regularly.

GOVERNOR WOOD.

One of the best sweet cherries, very large, light yellow, marbled with red, juicy, rich and delicious, tree healthy, large and a good bearer.

LAMBERT.

Jet black when fully ripe. The fruit is meaty, juicy and has a very rich flavor. Late July.

NAPOLEON.

Is the leading firm fleshed sweet cherry. It wins its award due to its large size, handsome appearance and high quality of fruit, and the quantity of fruit that is often produced on a single tree. The tree comes into bearing young and ripens into July.

SCHMIDT.

The fruits are black and large being unsurpassed in size by any other cherry. The tree is vigorous and productive. July.

YELLOW SPANISH. Late June.

Sour Cherry Trees

PRICES OF 2-YR.-OLD TREES	EACH	10	100
2 Yr. No. 1, 4 to 5 feet. 11-16 Cal.	70c	\$6.50	\$55.00
2 Yr. Med. 3 - 4 ft. 9-16 to 11-16 Cal.	60c	\$5.50	\$45.00

EARLY RICHMOND. June.

MONTMORENCY.

This is the most popular sour cherry grown in America. It stands at the top of all sour cherries in vigor, productiveness and quantity of fruit. The fruits have the advantage of being presentable in appearance and fit for use several days before fully ripe which adds greatly to its market value. July.

Dwarf Pear Trees

Ideal for home orchard. Require little room—

Bear early — Fruit easy to pick.

ANJOU — DUCHESS — SECKEL
3 to 4 feet. Each 65c.

ABUNDANCE.

One of the best Japan Plums. Tree is very rapid grower, healthy, and comes into bearing quite young and yields abundantly; medium size, rich, bright cherry red with distinct bloom and highly perfumed; flesh light yellow, juicy and tender, and excellent quality. tree vigorous and hardy.

YOUR
59c DOLLAR
buys 100 cents worth
of us.
Try it!

BURBANK.

Medium to large, orange-yellow, dotted and marbled with red, flesh meaty yellow, sweet and good; valuable for canning and a good market plum. Hardy and most prolific of the Japan varieties.

BRADSHAW.

Very large, dark violet-red, flesh yellowish green; juicy and pleasant; tree vigorous, erect and productive.

FELLEMBURG OR ITALIAN PRUNE.

Our most popular Commercial plum. It succeeds under most all climatic and soil conditions. The fruit is dark purple with a dark blue bloom medium to large size, oval, pointed and tapering. The flesh is juicy and delicious and it is very fine for drying and canning.

GERMAN PRUNE

A valuable Plum of fair quality for dessert, but most esteemed for drying and preserving. Oval, purple, with a heavy blue bloom; flesh firm, sweet and pleasant, separating from the stone. September.

PLUMS—Continued

MONARCH

Tree robust, dense foliage and abundant bearer. Fruit very large, roundish, oval, dark purplish blue, perfect freestone. October.

REINE CLAUDE

(Green Gage.) Large, greenish yellow spotted with red, firm, juicy, and sugary, of fine quality; very productive and one of the best sorts for market.

LOMBARD

Medium, roundish-oval, violet red, juicy and pleasant; adheres to stone; valuable market sort, hardy, and adapted to light soils; a reasonably sure cropper.

SHROPSHIRE DAMSON

Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving.

STANLEY

The fruit is of the prune type, excellent for cooking or eating out of hand. The tree is healthy, vigorous and produces full crop annually. Fruit is large in size, dark-blue with heavy bloom; flesh, greenish-yellow, juicy, fine-grained, tender, firm, sweet, pleasant; quality, good to very good. Freestone. Midseason.

YELLOW EGG

Fruit of the largest, egg-shaped, beautiful yellow color, flesh yellow and very fine for canning and eating; very productive. August.

Apricots

APRICOT TREES.

Produce bright orange-apricot colored fruit with flesh of same color. Superbly mild flavor. Delicious fresh, canned or dried. Rich in iron — can be digested by those who are denied other fruits. Plant two trees to insure pollenization.

PRICES

First Grade. 4 to 5 feet high. 9-16 inch Caliper. Each 65c.

HUNGARIA'S BEST

Strong grower, fruit large, deep yellow, with yellow flesh, very fine flavor. Set 25 feet. Will bear the best of any sort in the northeastern section of the U. S.

Quinces

CHAMPION

Fruit very large, fair and handsome. Bears abundantly while young; flesh cooks as tender as an apple without hard spot and cores; flavor delicate; quince taste.

PRICES

First Grade — 4 to 5 feet high, each 85c

Roesch's HAVE BEEN IN THE *Nursery* BUSINESS SINCE 1875

BEAUTIFUL HYBRID

These Plants will Bloom all Summer in a delightful array of color. Roses are favorites everywhere.

Hybrid Tea Roses

Prices Postpaid—45c each; 10 for \$4.00

Five of one variety or ten of not over three varieties at ten rates.

BETTY UPRICHARD

The flowers are semi-double, large, charmingly ruffled, and present an almost startling contrast in coloring. The outside of the petals is fiery copper-pink and the inner surface is soft salmon. Very fragrant. Very vigorous, tall and bushy.

E. G. HILL.

Large blooms of deep maroon, velvety on inside. In addition to its gorgeous appearance, it is exquisitely perfumed.

ETOILE DE HOLLAND.

Considered at present the best and most popular red Hybrid Tea. Not only its deep, rich glowing color, but fragrance and perfect form of bud and open flower have given this Rose its enviable position. Intensely fragrant. Very vigorous, bushy.

GOLDEN DAWN.

Bud rich sunflower-yellow, flushed old rose; well-formed, double flower, sweetly fragrant, sunflower-yellow passing to lemon-yellow with age. Vigorous grower; profuse bloomer. One of the best. The flowers are long-lasting and are fragrant with the real Tea scent.

GENERAL MacARTHUR.

An old favorite, popular in many gardens, producing long-stemmed, brilliant crimson flowers in great profusion. Wonderful fragrance. 20 petals.

GRUSS AN TEPLITZ

Deep crimson. Noted for its pervasive fragrance that is especially delightful. Rich crimson, changing to bright scarlet, shading to velvety fiery red. Use this variety for a truly hardy continuous-flowering, fragrant, 4 to 5-foot hedge of red Roses.

JOANNA HILL.

Yellow flowers, similar in color to Mrs. Aaron Ward, but much larger and fuller, are borne on strong stems almost free of thorns. Moderately fragrant. Vigorous, erect.

KAISERIN AUGUSTE VIKTORIA.

Creamy white, faintly tinged with lemon; large and full. Old as it is from a Hybrid Tea standpoint, no white

or later introduction can compare with it for quality of bloom. Slightly fragrant. Moderate, bushy.

LADY ASHTOWN.

The large, long-pointed buds open to perfect carmine-pink blooms with a golden underglow. Borne singly on long stems, they are fine for cutting and last well in the house.

LADY MARGARET STEWART.

Brilliant orange-yellow, turning gold as the blooms open. A rival of the great Rev. F. Page-Roberts. A lovely cut flower. 54 petals.

Early Spring Planted Rose
Bushes Give Best Results

GOOD MORNING
EARLY BIRD!

I see you have your
worm. Nuf. Sed.

MARGARET McGREDY.

This color is difficult to describe — red, rose and flame on the upper side of the petals, the under surface suffused with gold — a wonderful contrast; perhaps orange vermillion or coppery red would best describe it. Free and prolific bloomer; extremely hardy. Moderately fragrant. Very vigorous, erect and bushy.

MRS. E. P. THOM.

A new variety generally conceded to be superior to Souv. de Claudius Pernet and others of that type. Slender yellow buds opening into large, well shaped blooms of bright canary-yellow. Very vigorous and continually in bloom.

PRESIDENT HERBERT HOOVER.

An outstanding new variety of a startlingly new color combination — maroon, orange and gold blended, producing a gorgeous effect in color. Truly different and wonderful. The long pointed buds are borne on rigid stems, making it an excellent variety for cutting.

RADIANCE.

Rich pink, very fragrant, globular flowers with a light silvery or flesh tone on the inner surface. The most widely grown Rose. 23 petals.

T E A R O S E S

Two-Year No. 1. Hardy Field Grown. Will bloom this season. Best grade grown. Full of Vigor!

Hybrid Tea Roses—Continued

RED RADIANCE.

Big globular flowers of deep rose-red on strong canes freely produced until frost. 23 petals.

REV. F. PAGE ROBERTS.

This is one of the richest, fullest, and most perfect yellow Roses yet produced. The bud is beautifully marked and marbled with carmine-red. Better when pruned severely. Intensely fragrant. Moderate, bushy and low branching.

SOUV. DE CLAUDIUS PERNET.

A beautiful new salmon-yellow Rose. The bud is long and pointed, which opens into a very large and full flower. Bush vigorous and branches erect. A wonderful addition to the Rose list.

TALISMAN.

The coloring and shading of this wonderful new Rose are beyond word description. Only can the eye appreciate its exquisite beauty. Never has a new Rose reached such a high place in the Rose world in so short a time. It is a strong grower with handsome foliage and a very free bloomer. We would like all our customers to enjoy the beauty of this remarkable Rose in their own gardens.

Climbing Roses

Prices Postpaid. Each 40c; 10 for \$3.50

Five of one variety or ten of not over three varieties at 10 rates.

PAUL NEYRON.

Dark, lilac-rose blooms of immense size, fair form, very double, and remarkably fragrant. Quite vigorous, strong, almost smooth canes with tough leathery foliage; particularly free and constant bloom.

CLIMBING AMERICAN BEAUTY.

In bloom very similar to the bush Rose of same name. Of strong climbing ability; good, healthy foliage and of abundant bloom.

DR. W. VAN FLEET.

Absolutely hardy. Bears clusters of beautiful pink buds, on long stems, opening into large blush-white flowers.

PAUL'S SCARLET CLIMBER.

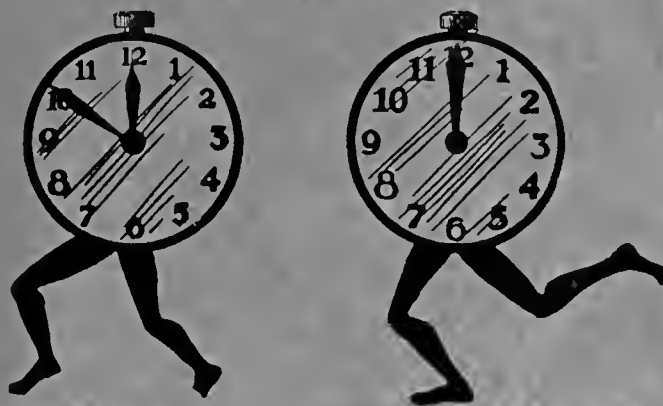

Most intensely red of all climbing Roses. Flowers of rose-crimson, lasting a long time, making a brilliant display for several weeks. Rated by the American Rose Society as one of the finest climbers in the United States.

MME. GREGOIRE STAECHLIN.

(The Spanish Beauty).

A splendid new climbing Rose, which has the added advantage of being excellent for cutting, as the flowers are borne on 12- to 15-inch stems. Crimson buds opening into large, semi-double pink flowers. The plant is extremely vigorous, making a growth of 12 feet or more each year. One of the most useful and effective, perfectly hardy climbing Roses.

TIME RUNS SWIFTLY

Don't Delay - - - - Order Today

Hybrid Perpetual Roses

Prices Postpaid. Each 40c; 10 for \$3.50

Five of one variety or ten of not over three varieties at ten rates.

FRAU KARL DRUSCHKI.

The regal White American Beauty. The distinctive form and expression of its bud, half opened state and maturity make it a three-fold wonder in all its stages. In gardens they commence blooming with other June Roses and are conspicuous throughout the summer with their waxen white loveliness, blossoming until frost comes on and stops them.

GENERAL JACQUEMINOT.

Known as the Gen. Jack Rose. This is one of the old reliable dark red Roses, free blooming, rich crimson-scarlet. One of the most beautiful.

ORNAMENTAL SHADE TREES

— ○ WHAT IS MORE BEAUTIFUL THAN A TREE ? ○ —

FOR
Street Planting

Lawn Specimens

Food for Birds

Landscape Background

ASH, AMERICAN WHITE.

A handsome, hardy broadheaded, quick growing shade tree, sometimes reaching 120 feet in height. Very valuable in landscape work, for park and street planting.

6 to 8 feet, each, \$1.75

AILANTHUS (TREE OF HEAVEN).

An extremely rapid grower; often growing 4 to 6 feet in a single season. The compound leaves give the effect of palm leaves. This effect is not only pleasing, but makes a dense growth, thus producing much shade even when trees are young. Grows anywhere, even on city lots exposed to gas and smoke.

5 to 6 feet, each \$1.00

CUT LEAF WEEPING BIRCH.

(Betula alba pendula).

The bark is similar to the white birch in color. The tree is tall and slender, but a vigorous grower with graceful and weeping habit, together with the cut leaf foliage presents such beauty as has never been seen before in a single tree. A wonderful lawn specimen or often planted in a row to edge the drive.

5 to 6 feet, each, \$2.00 6 to 8 feet, each \$2.25

OH, MIN —

*Where's Roesch's
catalogue? I want to
send in our order this
morning.*

CATALPA BUNGEI (Umbrella Cataipa).

Grafted on stems 6 to 8 feet high, it makes a symmetrical, umbrella-shaped head without pruning. The leaves are large, heart-shaped, look like shingles on a roof. Hardy and succeeds everywhere. Very unique and desirable.

5 to 6 feet, each, \$1.15

JAPANESE FLOWERING CHERRY (Prunus sieboidi).

One of the best bloomers of all the flowering cherries and probably the most popular. When in bloom the small tree appears to be completely covered with pink flowers. They are medium in size, double, and deep rose pink. A very fragrant bloom and is very showy when planted as a lawn specimen or in a large group.

3 to 4 feet, each, \$1.50

Flowering Crabs

BECHTEL'S FLOWERING CRAB (Malus ioensis plena).

The only perfectly double flowered crab. Its many delicate pink blooms appearing like small pink roses with delightful fragrance. A very popular type and much desired for the home grounds. 3 to 4 feet, each, \$1.50

RED FLOWERING CRAB (Malus Eleyi).

The young shoots are fuzzy and covered with red foliage resembling the Japanese maple. The flowers are rich red in color and appear in clusters much like apple blossoms, followed in the fall by red fruits in large clusters which are very attractive.

3 to 4 feet, each, \$1.25

Flowering Dogwood

WHITE FLOWERING DOGWOOD (Cornus florida).

The flowers are three or four inches across and appear in great profusion, in spring before the leaves are out. The foliage is grayish green and is very handsome, and in the autumn turns to a rich crimson scarlet hue. Used individually or in groups both for its white flowers and its autumn color. 3 to 4 feet, each, \$1.25

DOGWOOD (Red Flowering).

Similar to the above except that the flowers are a deep, rosy pink color. Especially attractive 3 to 4 feet, balled and burlapped. each, \$2.75

The Elms

AMERICAN ELM (Ulmus americana).

A beautiful native tree of great size and wide spread, with graceful drooping branches and handsome leaves. One of the best large towering trees for good medium shade. Often planted along streets because of its wide spread and height, but is also one of the best trees for the home.

6 to 8 feet, each, \$1.00 8 to 10 feet, each, \$1.50

CHINESE ELM (Ulmus pumila).

A type especially adapted to dry locations but does well under any normal conditions. In this section we consider it a partial dwarf because it grows so slow but it develops into a small compact tree.

6 to 8 feet, each, \$1.35 8 to 10 feet, each, \$1.75

MOLINE ELM (Ulmus americana moline).

A valuable new type of elm of compact but rapid growing habit. It has very large leaves that are very dark blue green in color, with the bark smooth and glossy.

6 to 8 feet, each, \$1.35 8 to 10 feet, each, \$1.75

Write for Quotations if wanted in larger sizes or quantities

STATELY AND BEAUTIFUL

—* ONLY GOD CAN MAKE A TREE *

FOR
Out-Door Living-Rooms
Birds to Rest and Sing in
Purifying the Air
Beauty to Enjoy

The Maples

NORWAY MAPLE

(*Acer platanoides*). A large tree with dark dense green foliage. It develops into a formal round head and produces very dense shades. A very slow grower but one is well repaid for waiting.

6 to 8 feet, each, \$1.75 8 to 10 feet, each, \$2.50

SILVER OR SOFT MAPLE

(*Acer dasycarpum*). A hardy rapid growing native tree of beautiful proportions. Its rapid growth and large size is valuable for quick shade. Its leaves are good sized light green above and silvery beneath, turning to a light red and bronze in autumn. It produces shade quicker than any other size.

8 to 10 feet, each, \$1.00 10 to 12 feet, each, \$1.25

SUGAR OR ROCK MAPLE

(*Acer saccharum*). This is a great spreading tree symmetrical and of grand proportions. Very long lived and does well in most soils except when wet and soggy. It roots very deep allowing grass to grow underneath. Its rich green leaves turn to a scarlet and yellow in the autumn.

6 to 8 feet, each, \$1.75 8 to 10 feet, each, \$2.15

SCHWEDLERII (Purple leaved).

A variety of Norway maple. New leaves bright crimson color changing to purplish green.

Price 6 to 8 feet, each \$2.25.

WIER'S CUT-LEAVED

A Silver Maple with remarkable and beautiful dissected foliage. A rapid grower, shoots slender and drooping, giving it a very graceful appearance.

6 to 8 feet, each, \$1.50 8 to 10 feet, each, \$2.00

MOUNTAIN ASH, EUROPEAN

A fine, hardy tree. The head is dense and regular, covered in June with a mass of white flowers, later with yellow berries, which turn into bright scarlet and last long into winter. Very beautiful.

5 to 6 feet, each, \$1.75

MULBERRY, TEAS' WEEPING

A graceful, beautiful, weeping tree, forming a perfect umbrella-shaped head, with long, slender, willowy branches drooping to the ground, gracefully swaying in the wind. Foliage lobed and of a delightfully fresh, glossy green. A rapid grower and exceedingly hardy. It bears edible berries in abundance — black and very sweet.

5 to 6 feet, each, \$2.00

The Oaks

PIN OAK

(*Quercus palustris*). Almost a perfect pyramid and described as half weeping when old, as the lower branches often touch the ground. It grows faster and develops the oak characteristics earlier than the rest. Its leaves are a dark glossy green, finely divided and turn to an orange scarlet in the autumn.

6 to 8 feet, each, \$2.00

RED

A tall tree, with massive, broad top and thick trunk. Of comparatively quick growth, with immense, high-coloring leaves.

6 to 8 feet, each, \$3.00

We don't trim the
quality of our stock
— just the Price.

LOMBARDY POPLAR

(*Populus nigra italica*). Often attains the height of 100 feet or more. Old trees that were well placed when planted are today outstanding landmarks. The leaves are a rich shiny green with the under side slightly lighter. A good tree for accent.

6 to 8 feet, each, 50c 8 to 10 feet, each, 75c

SYCAMORE, EUROPEAN

The well-known Oriental Plane (*Platanus Orientalis*). Used in great numbers to create vistas of dense green shade, along new streets which require quick development of shade.

6 to 8 feet, each, \$1.75

THORN, PAUL'S DOUBLE SCARLET

A small tree or large bush with spreading branches. Flowers bright scarlet, large, full, very double.

3 to 4 feet, each, \$2.00

WILLOW BABYLONICA WEEPING

A graceful tree of large size. Its fresh, bright green tint and long, wavy branches make it very attractive.

6 to 8 feet, each, \$1.50

Write for Quotations if wanted in larger sizes or quantities

FLOWERING SHRUBS *that make*

The Same High Quality for 63 Years

ALMOND FLOWERING PINK.

A very attractive shrub in early spring, being in full bloom before its leaves appear. The flowers are small double and light pink and a mass of these in the right spot certainly will draw many well deserved compliments.

2 to 3 feet Each 60c — 10 for \$5.00

ALTHEA (Rose of Sharon).

Blooms late in August and September, with a profusion of large and brightly colored flowers, much like the tender hibiscus in form. Double rose. Double white, Double purple. Double red, and Single white.

2 to 3 feet Each 30c — 10 for \$2.50

BERBERRIS ATROPURPUREA. (Red Leaf Barberry)

A brilliant accent shrub as a solitary specimen or in a close group among duller foliage. This variety starts in its spring foliage a warm bronzy red, the heat of summer bringing out a red brilliancy, with autumn adding other tints to its richness. The abundant scarlet berries persist throughout the winter. A sunny exposure is required for the best color effect.

12 to 18 inches Each 35c — 10 for \$3.00

**When they
send
their orders
in
Late!**

Believe it or not!

BARBERRY, THUNBERGI.

This is a dwarf Barberry; very hardy and very ornamental. Its yellow flowers are followed by bright scarlet berries. In the fall its foliage turns to scarlet and gold.

12 to 18 in. .. Each 20c — 10 for \$1.80 — 100 for \$15.00

18 to 24 in. .. Each 25c — 10 for \$2.25 — 100 for \$20.00

BUTTERFLY BUSH (Ille de France).

A sensational new variety of more uniform compact growth, and greater brilliance of color in bloom. The flowers are rosy purple, with a deep violet suffusion.

2 to 3 feet Each 60c — 10 for \$5.50

BEAUTY BUSH (Kolkwitzia Amabilis).

A charming new shrub with attractive leaves and gracefully arching branches. The beautiful flowers appear in great profusion in June in pairs which cluster closely in cymes of about twenty-five; bell shaped and

somewhat lipped, pale pink with orange veins in the throat.

2 to 3 feet Each 60c — 10 for \$5.50

CYDONIA JAPONICA (Japan Quince).

Very early in spring this fine old shrub is completely covered with dazzling scarlet flowers; followed by small, quince-shaped fruits which are quite fragrant. Growth bushy with protecting thorns.

18 to 24 inches Each 35c — 10 for \$3.00

DEUTZIA, Gracilis.

A charming dwarf variety. Yields a mass of pure white flowers about Decoration Day. 2 feet.

15 to 18 inches Each 35c — 10 for \$3.00

DEUTZIA, Pride of Rochester.

Double white, back of petals tinged with rose. Excels other varieties in size of flower and length of panicle.

2 to 3 feet Each 30c — 10 for \$2.50

DOGWOOD, Red Barked.

A shrub with blood red bark and clusters of fine white flowers.

2 to 3 feet Each 35c — 10 for \$3.00

DOGWOOD, Variegated.

One of the handsomest variegated-leaved shrubs. Bark brilliant red, leaves green, broadly margined with white. 2 to 3 feet, each 50c; 10 for \$4.50.

FORSYTHIA, Golden Bell (Spectabilis).

Broad heavy flowers. It is midway in bush character between the upright Fortunei and slender, drooping poise of Suspensa.

2 to 3 feet Each 30c — 10 for \$2.50

FORSYTHIA, Golden Bell (Suspensa).

Very long, slender, incurving branches, adapted to arches and trellises, as well as foreground filling.

2 to 3 feet Each 30c — 10 for \$2.50

FRINGE, Purple (Smoke Tree).

A shrub or small tree of spreading habit, covered in midsummer with a profusion of dusky, hair-like flowers that give it the appearance of mist or smoke. Requires plenty of room.

2 to 3 feet Each 90c

FRINGE, White.

A small native tree, with large glossy leaves. Produces clusters of long, white flowers in May and June that droop and appear like fringe. 10 feet.

2 to 3 feet Each 75c

HIGH BUSH CRANBERRY (Viburnum Americanum).

Covered with many bright red berries which hang on through the winter. Broad flower clusters with usually only the outer fringe fully open.

2 to 3 feet Each 40c — 10 for \$3.50

HONEYSUCKLE (Lonicera fragrantissima).

Early pink and white fragrant flowers; lustrous oval foliage retained all winter if somewhat sheltered.

2 to 3 feet Each 40c — 10 for \$3.50

the home **GROUNDS ATTRACTIVE**

Thrifty Two-Year-Old Plants

HONEYSUCKLE (Red Tartarian).

Light crimson flowers in early summer; abundant red fruits.

2 to 3 feet Each 35c — 10 for \$3.00

HYDRANGEA ARBORESCENS GRANDIFLORA.

(Hills of Snow).

In a mass planting the large bunches of flowers resemble a bank of snow, and are in bloom from July to September. By cutting back to the crown each year they may be kept round and dense. Excellent for foundation planting.

18 to 24 inches Each 35c — 10 for \$3.00

2 to 3 feet Each 40c — 10 for \$3.50

HYDRANGEA PANICULATA GRANDIFLORA.

(Pee-Gee Hydrangea).

Fine as tall hedges or may be pruned to compact round clumps. Very attractive when laden with their massive blooms which are first snow white and then Pink, finally becoming reddish bronze.

18 to 24 inches Each 35c — 10 for \$3.00

2 to 3 feet Each 40c — 10 for \$3.50

LILAC (Common Purple).

The old fashioned but still beautiful light purple lilac, very fragrant and prolific bloomer.

2 to 3 feet Each 35c — 10 for \$3.00

LILAC (Common white).

Similar to the above but with white flowers.

2 to 3 feet Each 45c — 10 for \$4.00

HYBRID FRENCH LILACS

2 to 3 feet Each 90c — 3 for \$2.50 — 10 for \$8.00

BELLE DE NANCY. Large double flowers of rose satiny white.

LUDWIG SPATHE. Darkest of the blues, a deep purple shade. Double.

MAD ABEL CHATNEY. Beautiful blooms of massive pure white flowers. Double.

PRES. GREVY. A compact flower of deep blue. Double.

PRES. POINCARE. An extra large flower of deep blueish purple which does not fade out when coming into full bloom. Double.

VON HORSTENSTEIN. A recent importation and well worth a trial. It produces large spikes of clear lavender flowers which have a fragrance all their own.

MOCK ORANGE (Golden-leaved).

Dwarf and very compact. Foliage is very dense and golden yellow throughout the season. Hardy and useful for grouping.

12 to 18 inches Each 40c — 10 for \$3.50

MOCK ORANGE (Large Flowering).

One of the most vigorous shrubs, having large, snow-white, fragrant flowers.

2 to 3 feet Each 30c — 10 for \$2.50

MOCK ORANGE (Virginalis).

A pleasing new variety with good foliage. The

flowers are the largest, handsomest and most fragrant of all the Mock Oranges. After blooming profusely in early June, it blossoms more or less until fall. A wonderful addition to flowering shrubs.

2 to 3 feet Each 50c — 10 for \$4.50

SNOWBALL, Common (Viburnum Sterilis).

The old fashioned snowball that is in full bloom Decoration Day. It has large dazzling creamy white blooms, that when planted alone or in a mass give a wonderful show.

2 to 3 feet. Each 50c.

SNOWBERRY, RED (Indian Currant, Coral Berry).

More compact than white snowberry. The narrow oval leaves are dull red and cluster tightly together along the drooping branches, a very good plant for foundation or steep bank planting.

2 to 3 feet Each 30c — 10 for \$2.50

SNOWBERRY, WHITE.

Slender, medium-growing shrub, does well in any soil, flourishes under trees and shady places. Leaves dark green and slender; small, rose-colored flowers in June and July. Clusters of milk-white berries which last until winter. Grows 3 to 5 feet high. Very attractive as a hedge.

2 to 3 feet Each 30c — 10 for \$2.50

Calling all Garden &
Landscape Fans.

make your Plans.

By M. E. ROESCH
Poet Extraordinary

Editor's Note: ? ? ?

SPIREA (Anthony Waterer).

Large heads of dark crimson flowers, blooming all summer. 2 feet.

18 to 24 inches Each 35c — 10 for \$3.00

SPIREA (Golden-Leaved).

Golden yellow foliage, double, pure white flowers in June. A beautiful variety of Spirea.

2 to 3 feet Each 35c — 10 for \$3.00

SPIREA (Thunberg's).

A dense, feathery bush of neat and graceful habit. It bears pure white flowers in May and June. Foliage changes to a bright orange and crimson in fall.

2 to 3 feet Each 40c — 10 for \$3.50

SPIREA, Korean (Trichocarpa).

A handsome new spirea similar to Van Houtti but with several well defined differences. The flowers are larger with a distinct eye in large dome shaped clusters. Makes the best show of all the spireas and is vigorous and hardy.

2 to 3 feet Each 50c — 10 for \$4.50

FLOWERING SHRUBS — Continued

SPIREA VAN HOUTTII

The old favorite white spirea. Quite common but yet one of the best of all shrubs. A good grower with good foliage and masses of large white flowers. A perfect fountain of pure white bloom in May and June. 2 to 3 feet .. Each 20c — 10 for \$1.75 — 100 for \$15.00

TAMARIX, AFRICAN.

A hardy, vigorously growing shrub, with scale-like leaves and small, rosy pink flowers that appear before the leaves. 8 feet. May.

2 to 3 feet Each 30c — 10 for \$2.50

WEIGELIA EVA RATHKE.

The most distinct variety blooming later in July

and most showy with its abundance of deep carmine red flowers.

2 to 3 feet Each 50c — 10 for \$4.50

WEIGELIA HENDERSONI.

A good rank grower and is well used as a screen plant and it attains a height of twelve or eighteen feet. It is a good bloomer being covered with beautiful pink flowers.

2 to 3 feet Each 25c — 10 for \$2.00

WEIGELIA ROSEA.

One of the most popular of all the weigelias, being a bright rose pink and one of the heaviest bloomers.

2 to 3 feet Each 25c — 10 for \$2.00

CLIMBING VINES

CLEMATIS — Large Flowering

Clematis thrive in well drained (but frequently moistened) light loam enriched by well-rotted manure. Spread roots horizontally, the crown 3 inches below surface. Full sunshine best.

— Henryi. Creamy white.

Jackmani. Velvety violet.

Mme. Ed. Andre. Crimson-red.

Ramona. Deep sky-blue.

All 2-year, No. 1 Each 75c

CLEMATIS PANICULATA

A Japanese vine of exceedingly rapid growth and a most profuse bloomer. The flowers are small, white, fragrant, produced in great panicles. Very popular.

2-Year Each, 40c — 10 for \$3.50

Boy! Oh! Boy!

Here's ROESCH'S
Catalogue.

Ma says we can depend
on ROESCH'S stock.

BITTER SWEET (Celastrus Scandens)

The foliage is glossy and handsome with numerous creamy white tufts in July. Its graceful sprays of scarlet berries are very attractive in winter and make handsome winter house decorations.

2-Year, No. 1 Each 25c

DUTCHMAN'S PIPE

A splendid, well known vine with heart-shaped, light green leaves 10 to 12 inches in diameter and queer, pipe-shaped, yellowish flowers, hardy and of rapid growth.

2-Year, No. 1 Each, \$1.00

HONEYSUCKLE, HALL'S JAPAN

Very vigorous. Flowers open pure white and change to yellow. Very fragrant and floriferous. Leaves remain green until midwinter.

2-Year, No. 1 Each, 25c

HONEYSUCKLE, SCARLET TRUMPET

A rapid grower, producing clusters of scarlet, trumpet-shaped flowers in great abundance. Very handsome.

2-Year, No. 1 Each 30c

IVY, AMERICAN OR VIRGINIA CREEPER

One of the most rapid growing varieties of native American vines. Useful for quickly covering arbors, verandas, walls and unsightly objects.

2-Year, No. 1 Each, 35c

IVY, JAPAN OR BOSTON

One of the finest ornamental climbers. It clings firmly to stone, brick or wood, and is entirely hardy. Foliage small but rich and dense, changing in autumn to carmine and gold of exceeding brilliancy.

2-Year, No. 1 Each, 40c

SILVER LACE VINE (Polygonum Auberti)

The name gives a very good description of the beautiful lacy appearance of this late blooming vine. It is covered with a foamy spray of delicate white flowers which appear late in the summer and usually last until frost. A strong grower and two plants will provide a good start in covering an ordinary porch the first year. The vine often grows as much as 25 feet in one season.

2-Year, No. 1 Each, 40c

TRUMPET FLOWER

A rapid grower and blooms almost all summer. Flowers bright scarlet and of trumpet shape.

2-Year, No. 1 Each, 30c

WISTERIA MAGNIFICA

Noblest and oldest of the vines. Often attains a great age with large woody trunk. The long flowers which are lilac blue with faint yellow spots, hang from the vines in large racemes.

2-Year, No. 1 Each, 50c

S M A L L . F R U I T S

Bring Early Returns ! Always a Demand for Large or Small Production !

Currants

Currants and Gooseberries are among the easiest of all fruits to grow, bearing good crops even when neglected, but responding liberally to cultivation and generous treatment.

DIPLOMA.

A very attractive red Currant of good quality; very mild. One of the largest in both bunch and berry. A most vigorous grower and very productive.

RED CROSS.

A fine red Currant of large size, long clusters and mild flavor. Vigorous and very productive.

WHITE GRAPE.

Large, mild, of excellent quality. Productive. Best of the white varieties for home and market.

WILDER.

One of the largest red Currants known and of good quality; mild sub-acid. The bush is a strong, vigorous grower and holds its foliage and fruit until very late. Very prolific. One of the best.

Postpaid at 10 and 25 Rates.

ALFRED.

The new Coreless Blackberry. This new variety has never been known to winter-kill in any section. The berries are of enormous size and sweet and delicious. Fruit ripens fully a week earlier than ordinary varieties and continues over a long season.

BLOWERS.

Originated here in the Chautauqua "Grape Belt" and is no doubt the most productive Blackberry known. 2,694 berries have grown on one bush, and 2,720 quarts on one-third acre. Of good size and quality. Jet black and a good shipper. Hardy.

ELDORADO.

A good grower, healthy, very hardy and exceedingly productive. Berries are large, jet black and of best quality. Very reliable.

Gooseberries

CHAUTAUQUA.

A very vigorous, stout, stiff, upright grower and exceedingly productive. Should not be planted closer than 4 by 6 feet apart. Leaves are large, glossy and dark green. Its fruit is a beautiful light yellow, perfectly free from spines and down, veined and translucent, averaging in size 1 to 1¼ inches in diameter, although we have often grown them 1½ inches in diameter. Rather thick skinned, but very sweet and of exquisite flavor. Prices:

three varieties at 10 rates

Asparagus

The culture of this early and delicious vegetable is usually very profitable. It comes early in the season when there is little else to market and the proceeds are quite acceptable. It is a rank feeder and must be fertilized very highly.

MARY WASHINGTON.

This variety is the result of careful breeding by the U. S. Department of Agriculture, Washington, D. C., with the object of eliminating rust. It produces large, straight shoots of a dark green color. The tips are tight and firm. A very valuable feature. 2-year, 10 for 75c; 25 for \$1.25; 100 for \$1.75; 1000 for \$10.00. Postpaid at 10 and 25 rates.

Rhubarb or Pieplant

The first thing in spring to furnish material for pie and sauce. Also very desirable for canning, and should be in every garden. Plant three or four feet apart and make the soil rich. The richer the soil, the earlier, larger and better the stalks will be.

Price of strong, 2-year roots, each, 20c; 10 for \$1.75; 100 for \$10.00.

The Money Makers! Income Boosters! Try Them!

Raspberries

All varieties postpaid at 10 and 25 rates

INDIAN SUMMER.

World's Best Everbearing Red Raspberry. Earliest to ripen, bears a large crop of fruit in the spring, and a second large crop in late August, September, and October. A sensation because of its size, flavor, and unusual beauty. Always brings high price because it ripens off season. Berries are glossy red, round and conical in shape, and of extra large size. Excellent flavor, hardy, free of disease, and an easy kind to grow. Try them! Very much superior to any other fall-bearing raspberry.

PRICE: 10, \$2.00; 25, \$3.50; 100, \$6.00; 1000, \$50.00

LATHAM.

First Choice of Commercial Growers. A popular favorite in all large fruit growing sections. Extra large, rich red berries, some measuring an inch in diameter. Bears a tremendous crop of best quality fruit. Finest berry for canning. Brings highest prices on any market. Has proven a profitable berry in all sections. Perfectly hardy. Originated in Minnesota at the State Fruit Breeding Farm. We have no hesitation in giving Latham our unqualified recommendation as the best all around Red Raspberry.

PRICE: 10, 80c; 25, \$1.25; 100, \$2.50; 1000, \$17.50.

TAYLOR (New Giant Red).

This great new red raspberry has been tested and proven to be perfect in every way, and we believe will fill a long wanted desire for a money-making raspberry. The plants are tall, very vigorous and upright, making support unnecessary. The berries are very large, and hold up well through its long season. It has a long shape, and is bright red in color. Absolutely will not crumble, which adds to its beauty and appearance. Is an ideal shipper.

PRICE: 10, \$1.00; 25, \$2.00; 100, \$5.00; 1000, \$40.00

COLUMBIAN (Purple).

A fine commercial sort. Vigorous, very productive, excellent canner. Fruit large, purple, firm. Midseason.

PRICE: 10, 80c; 25, \$1.25; 100, \$2.50; 1000, \$17.50

CUMBERLAND (Black).

Large, glossy black, firm, of excellent quality. Hardy and productive. Early to Midseason.

PRICE: 10, 80c; 25, \$1.25; 100, \$2.50; 1000, \$17.50

SHUTTLEWORTH.

One of the best early Blackcaps. Fine grower, very productive. The berry is large, and of excellent quality. Ripens very early, producing the most delicious fruit in one week. Practically the entire crop can be harvested in three large pickings, enabling the grower to reach an early market, and harvest the crop with a minimum amount of labor. This variety is most valuable, because it is almost immune from Mosaic.

PRICE: 10, \$1.00; 25, \$1.50; 100, \$3.00; 1000, \$20.00

Strawberries

BLAKEMORE.

Extra early, ripening four or five days before Premier. Introduced by U. S. Department of Agriculture. A cross between Premier and Missionary. Strong, vigorous grower and extra good plant maker. Berries are bright red, and resemble Premier, although they are somewhat larger and of better color. Very firm and a good shipper. Excellent canner.

DORSETT.

An extra early self-pollenizing off-spring of Premier. Plants are large and healthy, withstanding drought, excessive rains and frost better than any other standard variety. Does well on poor soil. Berries large, evenly matured, light bright red. Excellent for market or home use.

FAIRFAX.

Another excellent new variety, ripening early, about same time as Premier. Very vigorous and a fine plant maker. Withstands adverse conditions well and ripens evenly over a long period of ripening. Berries large and very attractive. Every strawberry grower should set Dorsett and Fairfax.

PREMIER.

One of the first berries to ripen. Medium red and attractive in color. Hardy, frost-resisting and vigorous in growth. Will do well in practically all sections of the country.

PRICES: (Postpaid at 25 and 100 rates)
25, \$0.50; 100, \$1.25; 1000, \$7.00

MASTODON EVERBEARING.

Without question the finest of the Fall or Everbearing varieties. It produces an immense crop in June and an abundant crop in the fall. Most prolific of all the Fall varieties. Berries immense size, unusually good quality and color. Plants healthy, very strong growers. An exceedingly profitable variety.

PRICES (Postpaid at 10, 25 and 100 rates):

HEDGE PLANTS

HAVE YOU A HEDGE PROBLEM? LOOK NO FURTHER!

Our assortment offers Hedging Stock for Every Purpose

CALIFORNIA PRIVET

Most popular because of its shiny green leaves. Usually hardy above zero temperatures. Quick growing, straight, densely clothed shoots; the foliage in precise arrangement, a dark shiny green.

100	100	100
12 to 18 inch	18 to 24 inch	2 to 3 feet
\$3.00	\$4.00	\$5.00

AMOUR PRIVET NORTH (Chinese Hardy)

Upright in growth. Dark green leaves and extremely hardy. Just the right kind of Privet for a hedge in northern states. Undamaged in cold winter of 1933-1934. Privet hedge, easily kept in shape by trimming new growth two or three times during summer season. Very neat and serviceable.

100	100	100
12 to 18 inch	18 to 24 inch	2 to 3 feet

BARBERRY, THUNBERGI — See Page 16

100	100	100
12 to 18 inch	18 to 24 inch	2 to 3 feet
\$15.00	\$20.00	\$25.00

CHINESE ELM

Makes one of the finest of hedges. Especially desirable for states of light rainfall and where extreme hardness is required. The hedge, limbs clear to the ground, is a bright rich green from very early in the spring, as it is much earlier than other hedges and carries its foliage, which colors with frost, way into the fall. Trim same as Privet or other similar hedges.

100	100	100
12 to 18 inch	18 to 24 inch	2 to 3 feet
\$2.00	\$3.50	\$5.00

HONEY LOCUST

Its foliage is feathery and fernlike. Very graceful and pretty. Makes one of the best and strongest thorny hedges for enclosing horses and cattle.

100	100	100
12 to 18 inch	18 to 24 inch	2 to 3 feet
\$2.00	\$3.00	\$4.00

THORNLESS LOCUST

Very similar to Honey Locust but without thorns.

100	100	100
12 to 18 inch	18 to 24 inch	2 to 3 feet
\$2.50	\$3.50	\$4.50

Hedges look their best if trimmed 2 or 3 times during the summer growing season

Its the easiest time to do it too.

OSAGE ORANGE

A medium sized spiny tree with spreading branches; rather large fernlike leaves of bright green which change to yellow in fall. Flowers are inconspicuous, but the succeeding orange-like fruits are attractive. It is chiefly utilized as a close, thorny, stock-turning hedge plant and allowed to grow fairly tall.

100	100	100

CHERRIES FROM BUSHES

HANSEN'S BUSH CHERRIES

VALUABLE FOR ITS FRUIT BEAUTIFUL AS AN ORNAMENTAL HARDY ANYWHERE

This valuable introduction is the result of over 30 years research and selection work by Prof. N. E. Hansen of South Dakota State College. A shrub which is very effective in any landscape planting and which bears fruit of good size and flavor. A sure, heavy yielder, starting to bear the year after planting and continuing year after year. The fruit makes wonderful jam and clear, sparkling jelly. *Perfectly hardy anywhere.* Don't fail to plant a few of them in your shrub plantings or garden. They always retain their dwarf stature.

Price of heavy 2 Year Bushes each. 50c
3 for \$1.25 — Postpaid

TRUEHEDGE COLUMNBERRY

**A LOVELY NEW SHRUB FOR HEDGES
AND GENERAL PLANTING**

Easily trimmed to any shape desired. COLUMNBERRY with its Boxwood foliage, Compactness, Hardiness and Adaptability, gives you in a very short time many of the marvelous Boxwood creations so prevalent in the lovely English gardens at only a small portion of the cost.

This new plant is so upright in growth that it makes a beautiful, hardy, permanent, instantly finished hedge, because it requires only a periodic clipping of the top at any desired height. It bears its foliage from the ground up every year. Always looks neat and trim.

Price:	Each	Per 5	Per 25	Per 100
9 to 12 inch.....	\$.30	\$1.25	\$5.00	\$18.00
12 to 15 inch.....	.35	1.45	6.00	22.00
15 to 18 inch.....	.45	1.75	7.50	28.00
